Front cover: Children in food fortification programme in Ghana.. Copyright GAIN

Opinion

05 Cancer screening in the dock
Prof Shima Gyoh berates tests that sometimes lead to 'cures' that are actually worse than the diseases themselves

07 Hurry slowly on health workforce
There are inherent dangers in moving too quickly on health workforce reforms. Francis Omaswa urges a more thoughtful, more consensual approach.

Newsdesk

09 A round-up of news from a new initiative to catalyse investment in African healthcare to a call for closer cooperation between physicians and veterinarians

Feature

15 **Malaria**
Who will pay for malaria programmes?
William R Brieger summarises the recently released 'World Malaria Report'

International

22 **Women's health: addressing the challenge**
A special commission has been set up by WHO Afro office. Bryan Pearson summarises the recommendations

Knowledge management

24 **Cochrane's Evidence Update**
In areas where intestinal worm infection is common, does giving school children deworming drugs improve their health and school performance?

26 Securing healthy futures through food fortification. The work of the Global Alliance for Improved Nutrition (GAIN).
Louisa Bare, Crown Agents, UK

Clinical Features

30 Pharmacodynamics for the prescriber
Simon R J Maxwell

36 Pharmacogenetics for the prescriber
Munir Pirmohamed

Clinical Review

41 AIDS; Medicine; Paediatrics

Medicine Digest

46 General; Surgery; AIDS; Paediatrics; Infection; Obs & Gyn; Cardiology; Pulmonary; Tropical; Oncology; Gastrology

Publishing Partners

54 A flush of success. An update on activities from our Publishing Partners.

Clinical Quiz

56 All work and no play...
Answers on page 40

Below are our Publishing Partners for 2013. Each organisation has demonstrated its commitment to health in Africa by supporting this publication throughout the year.

Taking Accuracy Across Africa

At HemoCue, accuracy is as much about who we are as it is about what we do. Just like our testing products and education programs, our distributors in Africa are devoted to ensuring accuracy at the point of care.

Our network is built on the conviction that accuracy is essential, no matter where you are.

The robust HemoCue Hb 301 kit is further proof of that conviction. The kit contains everything you need for anemia testing: our lab-accurate and battery-operated analyzer, micro-cuvettes adapted to demanding climates, and safe and convenient lancets. Use it as a convenient starter kit, or keep it refilled for emergencies and short-notice travel.

To learn more about the kit or our distributors throughout Africa, contact your HemoCue representative or email info@hemocue.se

Hemoglobin HbA1c Glucose Urine albumin WBC / WBC DIFF

HemoCue® has been a leader in Point of Care medical diagnostics for over 30 years. We specialize in giving healthcare providers tests that deliver fast results with the precision expected of a central lab.
