Opinion

05 Alcohol causes cancer
The medical evidence against alcohol is strong and yet it seems almost untouchable in terms of criticism in many societies. Shima Gyoh wonders quite how it has achieved such a lauded position

07 Leaving no one behind
Francis Omaswa looks at the challenges in designing health systems for accelerating the achievement of the Sustainable Development Goals

Newsdesk

09 A round-up of news including: Ebola vaccine trial provides high protection against disease; Gates Foundation to invest in HIV prevention device; ECOWAS launch cross border meeting on epidemic disease

Malaria elimination

15 The potential role for mass drug administration in malaria elimination
Prof William R Brieger

Clinical feature

18 Monitoring drug therapy
Andrew W Hitchings

24 Transient loss of consciousness
Peter O'Callaghan

28 What do we need to do to sustain compassionate medical care?
Raymond J Chadwick, Beth A Lown

Clinical Review

31 AIDS
Epidemiology of HIV/AIDS and the scale-up of antiretroviral therapy; The World Health Organization 2016 Consolidated Antiretroviral Therapy Guidelines; Preventing HIV transmission through antiretroviral therapy; and HIV-associated tuberculosis

Paediatrics
Effectiveness of 4CMenB vaccine for infants; and The future of polio vaccination in low- and middle-income countries

Medicine Digest

35 Abstracts taken from world-renowned medical journals focusing on: Paediatrics; Infection; Gastroenterology; HIV; Misc

CPD Challenge

39 Test yourself on the articles appearing in this issue of *Africa Health*
Answers on page 38

Clinical Quiz

40 Under pressure
Answers on page 34

Below are our Publishing Partners for 2017. Each organisation has demonstrated its commitment to health in Africa by supporting this publication throughout the year.

GlaxoSmithKline · HMD · ExxonMobil · MSD · BD · MMV Medicines for Malaria Venture · HemoCue

Do more, feel better, live longer

GlaxoSmithKline, one of the world's leading research-based pharmaceutical and healthcare companies, is committed to improving the quality of human life by enabling people to do more, feel better and live longer.

The company researches, develops, manufactures and markets medicines and vaccines to prevent and treat most of the world's major diseases.

We are committed to the responsible management of ethical, social and environmental concerns and, in particular, to playing a leading role in supporting healthcare in the developing world.
