Vol 39 No 5 July 2017

Opinion

- 05** Malaria vaccine on clinical trial
Huge logistic and financial challenges remain before malaria is eliminated, but Shima Gyoh is heartened at the advent of clinical trials of a vaccine—albeit one that requires six injections and provides protection of only around 60%
- 07** The 70th World Health Assembly turns the focus back to integrated Primary Health Care
Three reasons for optimism from the WHA are highlighted by Francis Omaswa. The election of Dr. Tedros as Director-General of the World Health Organization; the return to the principles of Alma Atta for PHC; and Zambia's innovative leadership on surgical care

Stay "Triple Strong"

Taking HIV medication EVERY DAY keeps me strong for a long, healthy life. With my new "Triple Pill" it can be just ONE PILL PER DAY.

Take a Triple a Day. Every Day.

Ask your Doctor if there is a Triple Pill for YOU.
