Editorial

03 When there is no doctor

Solutions to the human resources for health crisis remain elusive. There is commendable work at the community level but little new thinking to either stem doctor and nurse migration, or to search for positives from it.

Opinion

05 I am your Drobot... Repeat after me

Shima Gyoh peers into the future opportunities that artificial intelligence and neural networks might bring.

07 Health workforce alive and kicking

Dr Francis Omaswa reports from the Dublin Global Forum on Human Resources for Health.

Newsdesk

10 News update including:

Falsified and substandard medicines continue to threaten lives; and Dr Tedros's address to the WHO Executive Board

Features

13 Malaria and climate change

Climate change is happening. Professor Bill Brieger looks at the likely winners and losers of the malaria map across Africa.

16 Lesotho to upgrade national laboratories to accelerate the fight against TB

Tuberculosis remains one of the greatest challenges to health in Africa, and it is expensive to manage, especially for small countries like Lesotho. But progress is being made.

17 Seasonal malaria chemoprevention: how to sustain the impact in Africa's sub-Saharan region?

The evidence for intervention is stark with as much as a 65% reduction in malaria incidence in under 5 year olds. Medicines for Malaria Venture colleagues discuss the challenges that remain towards widespread implementation.

21 Difficult policy decisions needed to overcome the double disease burden

Three leading international figures from academia and industry look at the stark policy options facing Africa's health policy makers as the NCD challenge gains pace.

23 Ebola vaccine trials: the role of eHealth

Taylor Snyder describes how an innovative eHealth platform enabled effective coordination and monitoring of Phase 2 and Phase 3 clinical trials of a candidate vaccine, during the Ebola outbreak in Sierra Leone.

24 Why the ongoing harmonisation of regulation of medicines in Africa should be patient-centric

Kawal dip Sehmi, CEO of IAPO, seeks a voice for patients.

Clinical Feature

25 Structure and function of red and white blood cells

Barbara Bain, Professor of Diagnostic Haematology at Imperial College, London, provides a classic explanation of the role and make-up of the key blood components.

Clinical Review

31 Family Medicine and Primary Care; and AIDS

Medicine Digest

35 Abstracts from the literature:

Infection, Respiratory, Obs & Gynae, Paediatrics, and Miscellaneous

CPD Challenge

39 Test yourself on the key Clinical Review write-ups

Clinical Quiz

40 Hiccups and distended loops

Answers on Page 39.
