Contents Vol 40 No 4 July 2018

Special announcement

01 All change: Africa Health heads to Kampala

After 40 years with IPC and FSG, ownership of this journal moves to ACHEST from 1 August 2018

Editorial

05 A final word

Bryan Pearson signs off as editor

Special Focus

06 When the drugs don't work

Liz Tayler summarises the global challenge of antimicrobial resistance; and reports on Africa's response to date with 29 of the 47 members of WHO Afro sending in their self assessment on progress

Opinion

09 Indicators for health promotion missing in the SDGs

Francis Omaswa spots an important omission in the SDG plans

12 Latest Ebola response holds the key to global health security

Thomas Cueni on the huge contribution of scientific research in combating ever evolving health threats; and the clear business case for seeking the highest level (and extent) of immunisation possible

Newsdesk

13 News

Cautious optimism towards an HIV vaccine; two more Nigerian states launch health insurance schemes for their people

Features

15 Organisational reform delivers promising outlook at WHO in the African Region

A root-and-branch refocusing of how WHO operates in Africa is under way. Bryan Pearson reports on progress

18 The intersection between malaria and food security

The search for integrated actions in malaria control is perpetual. Prof Bill Brieger highlights the blight of the mosquito on the rural economy

21 Retention of qualified professionals in rural areas: a case study

Don't send the city kids to the rural areas! Outcome of a study from Senegal which looked in detail at the origins and aspirations of health workers posted to the rural areas

26 Using digital tools at scale: the integrated e-diagnostic approach in Burkina

Digitally inspired projects have a poor record when people try to scale an initially promising project. But in Burkina, they are bucking the trend with a successful programme that is gaining traction around the country

29 WAHO special report

33 Diagnostic tests for sexually transmitted infections

Sonia Raffae and Suneeta Soni review current practice

39 Clinical review

Medicine; public health

43 Medicine digest

Abstracts from the literature

47 CPD challenge

Test yourself on the articles in this issue

48 Clinical quiz

Diagnosing the causes of facial pain
Answers on page 42

Below are our Publishing Partners for 2018. Each organisation has demonstrated its commitment to health in Africa by supporting this publication throughout the year.

I need you here...

Taking your HIV medication EVERY DAY can help you be here when I grow up. I heard there's a "Triple Pill" that can make it easier.

Take a Triple a Day. Every Day.

Ask your Doctor if there is a Triple Pill for YOU.

The 2014 Namibian Guidelines for Antiretroviral Therapy and The World Health Organization recommend Fixed-Dose Combination Therapy Consolidated Guidelines on the Use of Antiretroviral Drugs for Treating and Preventing HIV Infection, Geneva, World Health Organization, 2013, (<http://www.who.int/hiv/pub/guidelines/arv2013/en>)
