Contents Vol 41 No 1 October 2018

Editorial

03 A new beginning

Francis Omaswa on how ACHEST intends to develop the Africa Health journal

Opinion

05 Inspiring a new breed of health diplomat

Empowering CSOs to play a more active role in Global Health Diplomacy was the subject of a recent international workshop. Francis Omaswa reports

07 UHC: Are we putting too much emphasis on health insurance?

As we move towards a common vision for the achievement of UHC, Dr David Okello reflects on a key challenge to a successful outcome

Newsdesk

09 News

Zambia trial cuts severe malaria deaths; Uganda builds new health centres; TB remains world's single largest infectious killer; Increasing domestic health expenditure: is civil society ready to set the agenda?; HIV-positive children in Uganda to take soluble ARVs

Features

13 Exploring regional approaches to Universal Health Coverage

Yoswa Dambysa and Patrick Kadama on the 11th Best Practice Forum of the East, Central and Southern Africa Health Community

16 Essential surgery is a priority for achieving UHC and SDGs in Africa

Surgery, anaesthesia and obstetrics have gained global recognition as essential to UHC and the SDGs. Francis Omaswa discusses

18 Innovative strategies to be engaged as Sahel countries eye malaria elimination

Eight Sahel countries have signed up to defeat malaria. Professor William Brieger assesses the challenges and possibilities

21 Medicines for malaria: setbacks and successes on the road to eradication

The search for solutions against the multiple facets of malaria is not simple. David Reddy assesses progress

24 Shining a light on health systems

The biennial Global Symposium on Health Research was an opportunity to understand cultural and practical differences in the delivery of care

Clinical Features

25 Antiretroviral pharmacology

Antiretrovirals can have unpredictable interactions with many commonly used medications, leading to dangerous toxicities and treatment failure. Matthew Page and Stephen Taylor provide a comprehensive summary for safe practice

30 Clinical Review

Dermatology: a detailed review on the identification, diagnosis and management of mycetomas. Tuberculosis: a summary on the outcome of the first ever UN High Level Meeting on the subject. Serious funds are being made available, but serious research is still needed to resolve the crisis

35 Medicine Digest

Abstracts from the literature. This issue covering: Paediatrics; Obstetrics & Gynaecology; Environment; Cardiology; plus a final section covering a variety of topics

39 CPD Challenge

Test your knowledge on what you read earlier

40 Clinical Quiz

Respiratory infections in children (answers on page 34)

Below are our Publishing Partners for 2018. Each organisation has demonstrated its commitment to health in Africa by supporting this publication throughout the year.
